

The result of September 11, 2001 has led to many new laws and rules that have taken away from the civil liberties of those in the United States. Whether the new rules are right or wrong or was the intended consequence of the terrorist who attacked the US. It has had an effect on the laws the governments allow and how people live their lives.

For example as a direct result of the 9/11 terrorist attacks, the Patriot Act was put in place which gave government agencies such as the FBI and CIA unprecedented authority.

The question is, were these the intended consequences of 9/11 by terrorist, to restrict the freedoms of Americans and make the society become less free?
